

Second-year computer engineering student with a foundation in software logic, system servicing, and hardware fundamentals. A results-oriented, and adventurous individual seeking a position to apply expertise in STEM-related subjects and implementing innovative solutions related but not limited to complex engineering challenges. Proven track record of success in group management, problem-solving, and cross-functional collaboration. Adept at utilizing technologies to optimize processes and enhance overall efficiency.

Experience

- DSA Interactive Learning Suite | Project Member

Manila City | 12.2025 - 01/2026

 - Built a desktop app using Tkinter as a GUI for running and testing core data structures and algorithms
 - Created a centralized Python launcher to manage modules like Binary Search Trees, Stacks, Queues, and Tower of Hanoi
 - Added an HTML-based index for documentation and easy navigation, linking the desktop app with a web-style overview
 - Led a team of 4 members, coordinating development tasks and timeline
- OOP-structured programs | Independent Developer

Manila City | 03.2025 - 06.2025

 - Created various programs such as a dice rolling, structure quiz, quiz creator, and other simple programs.
 - Further understood and grasped each component of a properly structured program.
- Philippine Army Cyber Defense Exercise 2025 | ROTC-Cadet

HPA, Taguig City | 03.2025

 - Maintained high levels of discipline and time management to balance rigorous academic requirements
 - Various tests and interpreting data in order to decode 20 tasks
 - PUP-ROTC team finished 10th out of 20 schools
- ICPEP-SE PUP Manila | Member

Manila City | 12.2024 - Present

 - Active member of the Institute of Computer Engineers of the Philippines - Student Edition
 - Participated in technical workshops, including breadboarding and circuit design, to strengthen hardware fundamentals.
- Google Developer Groups on Campus PUP | Member

Manila City | 11.2025 - Present

 - Active member of the Google Developer Group on Campus PUP

Education

- Polytechnic University of the Philippines | Bachelor’s Degree

Sta. Mesa, Manila | 09.2024 - Present

Major: Bachelor of Science in Computer Engineering | 2nd Year

Relevant Coursework: Programming Logic and Design, Object-Oriented Programming, Computer Hardware Fundamentals, Data Structures and Algorithms, Advanced Engineering Mathematics, Operating Systems.

Affiliations: Web Development Cadet at GDG on Campus - PUP and ICPEP-SE PUP Manila.

1st Year College: Basic ROTC Graduate
- Ateneo De Manila Senior High School | Senior High School Diploma

Katipunan, Quezon City | 08.2022 - 2024

Strand: Science, Technology, Engineering, and Mathematics (STEM)

Agila Basketball Organization Vice President
- Judge Feliciano Belmonte Sr. High School | Junior High School Diploma

Quezon City | 2018 - 2022

Grade 7: With Honors

Grade 8: With Honors

Grade 9: With Highest Honors, English Club President

Grade 10: With Highest Honors, MAPEH-club President

Junior High School: Graduate of Special Program for Foreign Language - Korean

Skills

Trilingual (English, Filipino, Korean) • Computer System Servicing • Python • R • Github • Git Version Control • Time Management • Adaptability • Technical Documentation • Organization • Breadboarding • Microsoft Office • Computer hardware troubleshooting and repair |

Projects

Servicing of Desktop Computer and Personal Laptop

- The desktop device did not want to show display on monitor, various troubleshooting was made by a repair shop and they advised to do a factory reset on the system itself. After further self-diagnosis, one RAM stick was found defective, and this problem was resolved.
- Personal Laptop would not boot as it due to no operating system found. Installed using usb-flashdrive with installation media. Laptop running normal.
- Installed 8gb RAM to personal laptop
